

Senior Information Evening

Digital Learning at JYHS

Digital Support Available for Learners

- Satchel One
- Outlook/OneDrive/Teams
- Achieve/Succeed
- School SharePoint
- ClickView

E-mails/ Microsoft Outlook

Outlook is the app that allows direct contact with teachers to discuss any schoolwork.

Many important school information, such as Prelim timetable/study support timetable etc is shared with pupils.

Please encourage your young person to check this on a regular basis

Microsoft Teams

Teams is the app we use most for the following;

- Keep track of work
- Work with staff and peers
- Showcase good work
- Ask questions

OneDrive

OneDrive is a file library where you can store all pupils' work.

Students have access 24/7.

Allows pupils to share files with peers and complete documents collaboratively.

Allows pupils to share files with teachers, but still work on this in real time.

Satchel One

Satchel One is the app to help parents keep track of:

- Class Tests
- Homework

It is the expectation that all of the above is posted by teachers. Teachers are to provide written feedback on a minimum of two pieces of work within the year. One of these will be the prelim.

If you do not have access, scan the QR code and complete the form on your way out.

Mrs Muirhead will email you your access details.

Achieve

A revision resource for
most senior phase courses.

All of the resources the teachers will be using will be located within the learning space.

Making a quick link to this space will make accessing materials easier.
